

7th International Conference on Agriculture, Food Security and Food Safety 2026

4th – 5th August 2026
Kuala Lumpur, Malaysia
Hybrid (In-Person and Online)

Welcome to the 7th International Conference on Agriculture, Food Security and Food Safety 2026 !

7th INTERNATIONAL CONFERENCE ON

We are delighted to invite you to the 7th International Conference on Agriculture, Food Security, and Food Safety, taking place on 04th - 05th August 2026 in Kuala Lumpur, Malaysia, with a hybrid format to ensure global accessibility.

This year's conference, themed **"Strengthening Agri-Food Resilience: Technology, Safety and Sustainability in the Climate-Challenged World"** brings together a diverse community of experts, researchers, policymakers, and practitioners to explore innovative solutions to some of the most pressing challenges of our time. The discussions will focus on sustainable agriculture, food security, food safety, and the interconnectedness of human, animal, and environmental health.

Whether you join us in person or virtually, this event promises a rich exchange of knowledge, networking opportunities, and inspiration to drive meaningful change in global food systems. Together, let's envision and work toward a more sustainable and resilient future.

We look forward to welcoming you to this exciting platform for collaboration and innovation.

Call for Papers

Conference Theme : “Strengthening Agri-Food Resilience: Technology, Safety and Sustainability in the Climate-Challenged World”

Agriculture impacts society in many ways, including supporting livelihoods through food, habitat, and jobs; providing raw materials for food and other products; and building strong economies through trade. The major product of agriculture is food, and much attention has been paid to Food security and safety in the world. Access to quality, nutritious food is fundamental to human existence. The long-term presence of food security and safety increases health and changes lives.

The AgroFood 2026 aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Agriculture, Food Security and Safety. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered, and solutions adopted in the fields of Agriculture, Food Security and Safety.

The purpose of **AgroFood 2026** conference is to provide a leading forum for the presentation and publication of new advances and research results from all over the world in the fields of Agriculture, Food Security and Safety.

7th International Conference on Agriculture, Food Security and Safety 2026 (AgroFood 2026) invites you to submit your research papers and case studies

- Application of IA in the agrifood sector:

Conference Chair

Assoc. Prof. Dr. Nor Khaizura Mahmud

Dr. Nor Khaizura Mahmud Ab Rashid is a Senior Lecturer at the Department of Food Science, Faculty of Food Science and Technology, Universiti Putra Malaysia (UPM). She holds a Ph.D. in Food Microbiology from Massey University, New Zealand, and a Master of Science in Food Microbiology and Food Safety from UPM. With over 15 years of academic and research experience, Dr. Khaizura specializes in food microbiology, food safety, and shelf-life assessment, with a strong focus on microbial quality and contamination in food systems.

Her research encompasses microbial ecology in traditional and commercial food processing, development of food safety protocols, and the application of predictive microbiology in food quality assurance. She has led and collaborated on numerous nationally funded research projects and has published extensively in peer-reviewed journals.

Dr. Khaizura is an active member of several scientific organizations, including the Malaysian Society for Microbiology and the New Zealand Microbiological Society. She has received several academic and service excellence awards, reflecting her dedication to advancing food safety and microbiological research in Malaysia and beyond.
